

**HITACHI**  
Inspire the Next

**Date: 3<sup>rd</sup> – 5<sup>th</sup> APRIL 2014**  
**Venue: Putrajaya Marriott Hotel & Spa**

This is year 2014 Malaysia College of Radiology was honored to be the host of KSR-MCoR Friendship Symposium. The theme of the symposium was Cardiovascular Imaging. The Korean Society of Radiology (KSR) through its sub-society, Korean Society of Cardiovascular Imaging (KOSCI), sent 6 speakers for the symposium and consultant radiologists from Singapore, Hong Kong and Taiwan were invited as well.

We, Best Contact (M) Sdn. Bhd. are proud to introduce the delegates with our latest largest bore in **Hitachi** Superconductive MRI, **Echelon Oval** which comes with the feature of detachable table. With large bore size MRI, we able to overcome the difficulty in scanning obese and claustrophobic patients.

We also never stay behind in CT scan with highlighting the delegates with **Hitachi 128 Slice CT Scan Scenaria** by showing them the first class image quality using powerful workstation, TeraRecon.

Many delegates were amazed with intuitive & easy workflow of TeraRecon workstation.

**HITACHI**  
Inspire the Next

Best Contact (M) Sdn. Bhd is the sole distributor in Malaysia for the world leader mobile C-Arm company, Ziehm Imaging.

We are proudly showcasing the Ziehm Vision Vario FD 3D, **Ziehm Vision Vario 3D FD...** This C-arm combines excellent 2D image quality with a highly efficient intraoperative 3D imaging module. The fully automatic 3D scan saves time and helps increase precision and safety levels by delivering volume renderings and CT-like slices.
