

2018 AFFITN in collaboration with MCOR and MYSIR

Date: 9-7th March 2018

Venue: Megallan Sutera Hotel, K.K, Sabah, Malaysia

Being as one stop solution to diagnostic imaging department, Best Contact (M) participated in the 13th Asian-Australasian Federation of Interventional and Therapeutic Neuroradiology (AAFITN) 2018 in conjunction with Malaysian Society of Interventional Radiology (MYSIR) 2018 and Malaysian Congress of Radiology (MCOR).

The theme for this congress is 'Strengthening Foundations and Exploring New Concepts' and Best Contact (M) is here to promote Hitachi Intraoperative MRI (iMRI) system.

In resection of brain tumor case, the iMRI image is most effective in showing the positional relationship between tumor and normal tissue. With iMRI images acquired intraoperatively in real-time, this will increase the accuracy of the navigation system.
