

2018 The 48th MOA Annual Scientific Meeting (MOA ASM)

Date: 10-12th May 2018

Venue: Equatorial Hotel, Penang, Malaysia

BEST CONTACT has been actively participates in yearly event of MOA as exhibitor to create awareness among the surgeon about the latest 3D mobile c-arm system, Ziehm Vision RFD 3D and now it comes with premium range of CMOSline which it provides low dose and same quality as ASI panel or higher resolution with same dose as ASI panel system.

Apart from the mobile C-arm we also get many queries from the delegates on Carestream 3D Onsite Extremity System. It's designed to provide pristine 3D images at the point of care—with an easy-open bore and patient access to allow weight-bearing studies not possible with traditional CT.
