

KUALA LUMPUR (April 5): BCM Alliance Bhd has provided 24 intensive care unit (ICU) beds to the Ministry of Health over the past two weeks.

In a statement, the group said its wholly-owned subsidiary Best Contact (M) Sdn Bhd had mobilised its resources to meet the urgent need for hospital beds among public healthcare providers battling Covid-19.

“Hospitals are in dire need of medical beds and other equipment, such as nebulisers, thermometers and other personal protective equipment (PPE), as they confront the Covid-19 outbreak,” said BCM Alliance managing director Liaw Chong Lin.

“Fortunately, we have immediate supplies of quality medical beds that can be delivered quickly to areas with the greatest need. Our team has worked tirelessly to deliver and install the beds in the respective hospitals,” Liaw said.
