

41st MOA AGM/ASM & 5th ASEAN Arthroplasty Association Meeting
Theme: Reconstructing Joints
Date: 21st May 2011 Sunday & 23TH May Tuesday 2011
Venue: Kuala Lumpur Convention Centre

An excellent scientific programme has been planned especially on arthroplasty. Participants were enlightened with the latest advancement in this field and other orthopaedic specialities. There were two concurrent sessions with six plenaries and four congress workshops in this meeting. Many international and local speakers were invited to meet the expectations of the delegates.

Best Contact (M) Sdn. Bhd participates in this event as exhibitor to introduce audiences with high-end mobile C-Arm, Ziehm Vision.

Ziehm Vision Mobile C-Arm delivers the state-of-the-art functionality by bundling finely tuned components which fits the broadest spectrum of clinical application. With the main feature in the system, ODDC, provides superb image quality, systematically reducing dose levels for both staff and patient.
